a
Investigator: research brief, 15 written directives, feasibility threshold set in advance
Propose change one element
Generate 50 pitches per condition
Evaluate quality, novelty, feasibility
Agent (Claude Code) executes
Keep or discard (Pareto rule, logged reason)
Generators: GLM-5, GPT-5.4, others
Validation: 1,200 blinded journal pitches and an independent pairwise judge
b
AR-02 headline (GPT-5.4, stacked prompt; feasibility 2.44, inadmissible)
AR-01 winner (M3v06)
AR-03 M6v04 (feasibility 3.38)
AR-03 M6v05 (feasibility 3.38)
